

Mobile Hotspot Checkout Agreement

The Carson City School District provides access to hotspot devices based on availability. These devices allow students and staff to access wireless Internet at home or on the go. However, unlike the student Chromebooks provided by the Carson City School District, these hotspots have **NO** Internet content filtering or activity reporting capability.

I understand that the hotspot operates on a 3rd party cellular network and that the service quality and availability will be dependent on that cellular network. Service quality and availability is not guaranteed.

I understand that the Carson City School District is not responsible for any files, data, communication, or personal information accessed, transmitted, lost, damaged or stolen while accessing the Internet via the hotspot.

The use of the hotspot is subject to the Carson City School District Acceptable and Responsible Use Policy. In addition, some schools have additional restrictions that have been put in place to better serve their student population. Please check with your student's school to determine if any additional restrictions have been put in place.

Parents/guardians are responsible for monitoring what their children access while using the hotspot. Therefore, all students must have parent or guardian permission to check out a mobile hotspot.

By signing below, I accept the above Mobile Hotspot Checkout Agreement and I give permission for my child to check out a mobile hotspot. I understand that there is NO Internet content filtering available on the hotspot and that I am responsible for what my child accesses on the Internet while using the hotspot. Hotspot and related items must be returned upon request, due date, or termination of enrollment.

Replacement or damaged fines and fees:

- Hotspot \$120
- Cord and power plug \$20
- Carrying case \$10
